Brief Overview

Camp Roehr Mission: To provide a safe, enjoyable, residential camping experience for children with a primary diagnosis of epilepsy, to build self-esteem by promoting self-confidence, competency and social interaction, and to foster independence in a safe environment away from home.

Camp Roehr is a 6 day/5 night residential summer camp for children with epilepsy ages 6 through 17 held at the YMCA Trout Lodge and Camp Lakewood in Potosi, MO. Often children with epilepsy are denied the privilege of attending summer camp because of their epilepsy, but that is not the case at Camp Roehr. Camp is a place where children are able to try new things in an environment that is safe, encouraging, and supportive.

Eligibility and Criteria

Any child with epilepsy and/or seizure disorder age 6 through 17 is eligible to apply to attend Camp Roehr. Camp Roehr is intended for physically abled children that are functioning at a developmentally appropriate level, and do not have severe physical and behavioral problems. Child must have primary diagnosis of epilepsy and be on anti-seizure medications and/or physician approved treatment therapy (i.e. Ketogenic diet, VNS, etc.) Any secondary diagnosis will be evaluated by our Camper Selection Committee.

Eligibility for selection to attend Camp Roehr is dependent on completion of all forms, releases, and applications in this packet. All applications are reviewed and campers selected by the Camper Selection Committee. Campers will be notified by either phone or mail of the selection committee's decision no later than June 1st, 2017.

Should any information completed in this application be found to be falsified previous to and/or during the week of camp, the Epilepsy Foundation of Greater Southern Illinois reserves the right to deny acceptance and/or send the camper home. (For example, but not limited to: excessive physical limitations, required care that does not reflect our staff ratio, behavior disturbances, etc.)

PART J - PACKING YOUR CAMPER'S MEDICATION

Dear Parents,

Welcome to Camp Roehr 2017! This note is to let you know how the medication for camp needs to be packed.

Medications are usually given out at breakfast (8:00-9:00), lunch (12:00-1:00), mid-afternoon (3:00-4:00), dinner (5:00-6:00), and bedtime (8:00-9:00). We like to keep with the above times if possible because the campers are usually all in one area except during the mid-afternoon. We can however accommodate special times if needed.

The medications your child needs to be given the week of camp will need to be packed in individual envelopes or zip lock bags labeled with day and time of medication(s), camper's name, the medication(s) listed and dose to be given at a particular time. Please see example on page 2 of this letter.

NOTE: IF YOUR CHILD HAS A PRN ORDER FOR DIASTAT, IT MUST BE SENT WITH OTHER MEDICATIONS!

PILL BOXES WILL NOT BE ACCEPTED AT CAMP!

In addition to packing the medications by each individual dosage we also need you to send two extra dosages in the original bottle that has the pharmacy label with the correct current dosages in case there is a question throughout the week. We will return your bottles and any unused medication to you when you pick your child up from camp.

I realize this is time consuming for you, however we may be passing medications to 45-50 individuals and we have found over the years this is the most efficient way to make sure we are giving the right medication, to the right camper, at the right time.

Please see the next page for instructions and example. If you have any questions, please call Janet Shearrer at 618-236-2181, extension 114. If you call, you may need to leave a message and I will return your call as soon as possible.

Sincerely,

Janet Shearrer
Camp Director
Epilepsy Foundation of Greater Southern Illinois

The following information should be on each envelope or bag:

1. Day and Time
2. Name of Camper
3. Medication with total dosage of each medication
4. List any liquid medications, injections, or refrigerated medications on the bag or envelope
5. Place all the bags or envelopes of medication along with the pill bottles with correct label into one large bag.

NOTE: Your pharmacist will label empty bottles with correct instructions even if it is not time to have the medication refill. Tell them it is for camp. They may have to call the child's physician for correct instructions if child's meds have been changed since the last written prescription.
