Presents Purple Day

Power in Purple

Purple Day®, observed annually on March 26, is a global initiative to raise awareness about epilepsy and support those affected by it. The Epilepsy Foundation's theme, **Power in Purple**, emphasizes the strength and resilience of the epilepsy community, while highlighting the incredible impact that collective action can have in driving meaningful change. This year, the Epilepsy Foundation is partnering with The Anita Kaufmann Foundation, an important ally in raising awareness for epilepsy. Through collaboration, we hope to elevate the voices of those affected by epilepsy and promote a deeper understanding of the challenges they face to reduce stigma and ensure that no one faces epilepsy alone.
